EDUCATION

Mechanical Engineering

Federal University of Technology, Minna

09/2015 - 07/2021

PERSONAL PROJECTS

Netflix Clone (10/2021 - 10/2021)

- React -HTML -CSS -JavaScript
- Firebase(deployment and hosting)
- axios (fetching of API information)
- <https://quagmire-flix.web.app/>

the Great Wall (11/2021 - 11/2021)

- Personal project to reinforce my tailwind CSS knowledge
- react-router-dom(routing of pages to eliminate page load delays)
- mastered the art of site deployment using gh-pages for react apps(the presence of react router dom required different settings)
- tailwind initialization, and configuration. (Create React App Configuration Override)
- I am in love with this project because of the manner i solved the problems I encountered.
- AOS(animate on scroll). Responsible for the fadeIn and fadeOut effects.
